

Adams Building,  
23 Court St.  
Boston.

October 7, 1891

My dear Sir:

The Committee of the Board of Overseers for nominating the visiting committees of the several departments of the University for the present year, has been appointed.

Will you be so good as to inform me at your convenience whether any, and, if so, what action has been taken by the committee last year appointed to visit the Herbarium?

Would you also advise me whether in your opinion any changes in that committee are desirable, and, if so, what persons you think might be dropped without injury to the committee, and what other persons placed upon it?

An early reply will oblige, as the Committee of the Overseers is desirous of completing the work of revision of the visiting committees at an earlier date this year than it was completed last year.

I remain, etc.,

Dr. Sereno Watson,

Cambridge, Mass.
